

DAN-Board Ground protection mats

DAN-Board Ground protection mats are stable plastic plates made of regranulate from 100% recycled plastic, and has many possible applications. The product is used in many industries where they are used as road plates or bottom plates, because they can withstand high loads and at the same time are resistant to liquids and chemicals.

Non-slip plastic sheets

One of the most important properties of our DAN-Board Ground protection product is that they are constructed with a textured pattern, making them slip resistance, which is why this product is suitable as a base plate or road plates and can also be used as a temporary floor covering.

The high resistance of the plates will ensure a long service life.

Product properties

- Made of 100% recycled plastic LDPE-Compound.
- Minimum capacity of 10 tons per axle load at 10mm mat thickness (on solid and even surface)
- One sided texture for slip resistance.
- Can handle tempratures of -40 C° to 70 C°.
- Can be custom tailored if the customer wishes (Thickness size, holes, logo and color)

Accessories for Ground protection mats

Product number	Product
0001	Krog
0002	Connector U
0102	Connector plast
_	

Technical data

Туре	LDPE
Raw material	recycled
	LDPE-compound
Delivery form	boards
Standard surface	embossed
Colour	black
Thickness	6 - 18 mm
Standard length	2400 / 3000 mm
Maximum length	3500 mm
Standard width	1000 / 1200 / 1500
	mm
Other dimensions and colours	on request
Range of applications	floor covering
	driving board
	ground protection

Working possibilities

Sawing	Х
Drilling	Х
Routing	Х
Bending	Х
Welding	Х

Mechanical properties

Unit

		Offic	
Density	DIN EN ISO 1183	g/cm³	0,94
Abrasion resistance (at 1000 g)	ASTM-D-4060-10	Wear Index	ca. 45
Mechanical stability		much on the condi of the subsoil. At s boards can be driv	ability depends very tions and the stability table subsoil the en on with standard um axle weight of 10
Surface		The embossing given skidproof surface	es the boards a

Thermal properties

Unit

min./max. service temperature		ů	-40 bis 70
Linear thermal expansion	DIN EN ISO 11359	mm/(m·10 °C)	1,8

Chemical and physical resistance

Degree of flammability	DIN 4102		B2
		The resistance of these products to acids leaches and solvents is generally spoken	
		very good.	3 , 1
